

# Custom Packaging

## American Profol – Custom Packaging High Quality Cast Polypropylene Film

American Profol is dedicated to providing high quality cast polypropylene film options for a variety of flexible packaging applications. Besides offering a standard product line of cast films to meet your requirements, we offer several custom films for specific and unique packaging applications.

### ProPeel

An easy peel solution for pouch or lidding applications sealing to polypropylene and polyethylene substrates. Typical peel strength 400-800 gram/inch

### ProTort-1

A low gloss cast PP film engineered for use as a sealant layer in retortable food pouches.

### Biodegradable Film Options

American Profol cast PP films made with EcoPure™ additive have been shown to biodegrade under ASTM D 5511-02 conditions. EcoPure can be added to select American Profol Films. See us at [www.profol.com](http://www.profol.com) for more information.

### Anti-Fog

A clear cast PP film solution used in packaging fruits and vegetables. Keep your products fresher longer! Hot and cold solutions available!

### Standard Product Line for Flexible Packaging:

- Super Clear – Optically clear cast PP film
- Clear Tear-Seal – Optically clear, soft CPP film
- ProPost – USPS approved poly wrap for overwrapping magazines
- Tougher Super Clear – Optically clear PP film, designed for heavier products
